Hydrology

How much water is stored in the subsurface, and how did it change between surveys?

Subsurface water storage, mm | Seasonal storage change, mm

Where it can be produced

● Ready	RCCZO	Cores, a temperature record and a repeat survey in September.
◐ Partial	BW	Storage and saturated-zone geometry only; storage change cannot be produced.
⊘ Not supported	GAR	Only a seismic line exists at this site.
■ Format not identified	JEM	Format identification has not matched these files to a reader, so nothing can be produced yet.

Design preview. Values are illustrative and no computation is performed.
